

I am opposed to this oppressive stand point taken by the congressmen that were elected by us, the voters, to supposedly represent us in Congress. If you travel for your job and for pleasure you enjoy and welcome such information as news and weather that is from all areas of the United States. My freedom to listen to whatever I want to on a satellite service is my perogative and right. I am an adult who can make my own decisions and value judgments on what I will listen to, not the government.
